Autumn-Winter 2022

STICKSANDSTONES

Sticks and Stones is a leather fashion label from Amsterdam and stands for expressive colors, refined designs and real leather.

Sticks and Stones is famous for its colorful collections and has become an integral part of the fashion scene in The Netherlands and throughout Europe. The pure and refined designs make the Sticks and Stones collections both fashionable and timeless.

Sticks and Stones creates colorful leather wear with an excellent fit. Each garment is made from the softest leather and is hand-finished, creating a unique and vivid look. The Sticks and Stones bags and accessories are noted for their contrasting linings and functionality.

Sticks and Stones is dedicated to socially responsible manufacturing and only works with carefully selected manufacturers, that meet the brand's high standards and where there is a humane working environment (e.g. fair labor hours and wages, minimum age requirements, and membership of a union). Furthermore Sticks and Stones leathers are strictly dyed with colors that comply with the AZO and other EU regulations. The Sticks and Stones Vegetable Tanned Leather collection is tanned with natural ingredients and is also known as Eco-Leather.

Sticks and Stones started in the late seventies as a young and vintage leather brand in Amsterdam, showcasing its designs on the Waterlooplein in the old city center of Amsterdam. In those days the Waterlooplein was the fashion center of Amsterdam and beyond, and you could find many young designers and fashion innovations right there. Even well-known designers came there to get inspired. It was a time when leather jackets and bags were black and brown only, which inspired Sticks and Stones to become the first brand to make colorful leather collections. From there Sticks and Stones developed as a brand, moved to the World Fashion Centre in Amsterdam, and became an international leather fashion brand. Early 2017 Sticks and Stones moved to a beautiful and big location in the centre of Amsterdam, in the hip and trendy area called 'De Pijp', giving Sticks and Stones the ability to further develop as a brand and where a flagship-store is combined with the office and showroom. Sticks and Stones still is a family owned and operated company.
